I'm Gabriel, an interactive media designer who loves bringing ideas to life. I do video editing, animation, web design, photography, and photo editing.

I started editing videos at 17, and ever since, I've been figuring out new tools and techniques as I go. Officially trained with a CFC, but mostly self-taught. I also enjoy experimenting with social media, creating content that grows communities and grabs attention.

Curious and creative, I'm always learning, always trying new things, and always turning ideas into experiences that feel polished but still have personality.
